

Well done everyone for another fantastic term! You have been a fabulous Badgers class and we have loved teaching you all. The children really enjoyed our Arts week learning about Friedensreich Hundertwasser. We discovered that he has the common themes of lollipop trees, hiding faces and eyes in his art work, onion shaped domes and he never uses straight lines as nature does not have straight lines. The children produced lots of fantastic art work using the same style and absolutely loved doing it! It was great to share this with you in our whole school art gallery outside.

We thoroughly enjoyed reading our class text 'Arthur and the Golden Rope,' which inspired us to write excellent stories and create interesting information texts about the Vikings.

In Science, we have continued to do lots of investigations, finding out about the properties and changes of materials. We tested the properties of different materials and discovered which materials dissolve as well as lots more.

In Art, we have been using paint to create different textured papers which we then used to make a collage of a Viking longship. They looked fantastic! The children also made used clay stunning dragon eyes. The detail they used was amazing.

In History, we have been learning about the Vikings and had a brilliant Viking Day with a workshop to celebrate our learning. In Geography, we have learnt about Scandinavia, where the Vikings originally came from.

For PSHE, we learned all about how our bodies change during puberty and thought about how these changes might make them feel as well as coming up with strategies to cope.

Our sports day was fantastic and the children all cooperated well and used their values of perseverance, resilience as well as showing determination too. Congratulations!

We hope you all have a wonderful Summer holiday and come back excited and ready to learn in your new classes. Good luck in your next school year and happy holidays!
